To Whom It May Concern:

RE: *Amaranthus palmeri* status

The Oregon Department of Agriculture (ODA) has received inquires from the Seed Industry concerning if Palmer amaranth, *Amaranthus palmeri*, is known to occur in Oregon?

We have checked with Richard Halse at the Oregon State University Herbarium to see if there are any herbarium records for *A. palmeri* in Oregon? Based on the response from Richard Halse, *A. palmeri*, is not known to occur in Oregon.

If you have any questions or require further information, please contact me.

Sincerely,

Tim Butler, Manager
ODA Noxious Weed Control Program
