Sprague Pest Solutions Names Lance Gray As Eugene Service Center Manager

Tacoma, Wash. – Sprague Pest Solutions announces the promotion of Lance Gray to the position of Service Center Manager of its Eugene, Oregon service center.

Gray joined Sprague in 2009 as a service technician and worked his way up to Operations Manager for Eugene and the Southern Oregon coast market prior to his promotion.

“Lance Gray is one of those rare individuals with hands-on talent and a gift for leadership,” says Jeff Miller, general manager of Sprague Pest Solutions, the United States’ 32nd largest pest management service provider. “We are fortunate to have Lance leading our growing Eugene operation.”

Sprague, which currently operates service centers in Eugene and Portland, has been servicing commercial and residential customers in the Oregon market since the early 1990s. The company specializes in providing custom pest management solutions for a wide array of Oregon industries including agriculture, hospitality, food processing, food service, transportation and healthcare.

Sprague Pest Solutions, founded in 1926, delivers innovative pest solutions to commercial and residential pest management customers in Washington, Oregon, Idaho, Utah and Colorado. Sprague is a Copesan Services partner.
